

# AIRCRAFT COST CALCULATOR

## ANALYZE, COMPARE AND SIMPLIFY

The Aircraft Cost Calculator™ is an intuitive business tool that allows you to discover and understand the true costs and benefits of aircraft ownership (full, partial or even fractional share). Streamline aircraft ownership cost analysis for nearly 200 of the most popular business aircraft, including initial investments, maintenance and management fees, fuel costs, depreciation and more.

Whether you are an Aircraft Owner, Flight Department Manager, Broker, Dealer or Part 135 Operator and need to analyze costs for multiple aircraft and different client needs or are a prospective new owner researching a one-time aircraft purchase, Aircraft Cost Calculator™ has a purchase plan tailored to your needs.

**2 Week Trial:** Perfect for one-time aircraft purchasers or anyone interested in learning more about the capabilities of Aircraft Cost Calculator™ \$49.

**6 Month License:** Great for brokers and Part 135 operators, no limit on number of aircraft or number of comparisons performed, customize reports with your company logo, \$299.

**1 Year License:** Best option for power users like brokers and Part 135 operators, unlimited analysis and reports for a full year from purchase date, customize reports with your company logo, \$499.
